Interests	Math, Mechanical Engineering, Music
Favourite food	Potato Chips and Chocolates
Favourite drink	Orange juice
Goals & Aspirations	To better understand how things work

### Reporting Officer's Comments

Peppy is a very focused and dedicated cadet. He is highly analytical and is an excellent problem solver. As a young cadet, he has picked up a surprisingly broad number of skills from our Chief Engineer, Tinkerton since joining the academy.

Peppy has a quiet and contemplative disposition. He is a good team player and contributes very effectively to our Earth missions. He is very fond of his older sister, Lili and confides in her when he is troubled.
