Favourite food	Not Applicable
Favourite drink	Not Applicable
Goals & Aspirations	To learn how to be a more creative Captain.

Reporting Officer's Comments

Captain Ferdinand is a second generation F.I.N.D. (Friendly and Intelligent Navigation Droid) developed by the QD-ExploreTech Agency to expedite the search for new habitable planets in far away solar systems.

Each F.I.N.D. personnel develops unique personalities and perspectives according to the sensory and data inputs it receives on its adventures. Ferdie seems to have developed a rather "grouchy" disposition but he is one of the best ship Captains I've had the honour to work with.
